REPORT

OF

THE TERRITORIAL AUDITOR

For the Years 1901-1902.

REPORT.

TERRITORY OF NEW MEXICO,
OFFICE OF THE AUDITOR,
SANTA FE, N. M., December 15TH, 1902.

To Hon. Miguel A. Otero, Governor of the Territory of New Mexico:

DEAR SIR:—Complying with section 2591 of the Compiled Laws of 1897, I have the honor to transmit, through you, to the Legislative Assembly, my report of the official transactions of this office for the bennial term ending November 30th, 1902.

It is very gratifying to state that the financial condition of the Territory never has been in a better condition, all appropriations are met, and all accounts against the Territory, with a few minor exceptions, were promptly paid.

It is shown by this report that a levy of 1 mill for the year 1900, produced the sum of $26,744.85; for the year 1901, the same levy produced $27,367.87, an increase of $623.02; these figures are based upon the taxes collected up to and including November 30th, 1902.

The levy of 6 mills made by the Thirty-fourth Legislative Assembly, for territorial purposes, was sufficient to meet all appropriations, and I would recommend that the same be continued.

This report shows that the warrants drawn during the 52nd fiscal year amount to $333,056.30; the amount drawn during the 53d fiscal year is $302,305.08, making a total of the warrants drawn by the Auditor during the term of this report, amounting to $635,361.38.

I desire to call your attention to statements 12 and 13 of this report; you will find that the assessment rolls with very few exceptions, arrive at this office in a very unsatisfactory condition. Of the twenty one counties of the Territory, but four send in balanced rolls accompanied by complete ab-

stracts as required by law, viz: Chavez, Grant, McKinley and Bernalillo. Rolls from other counties being more or less incorrect and some in very bad shape indeed, not only as to what is the correct amount as to assessed valuation, but also in the extension of territorial tax levies, which for 1902 tax was certified to the different county boards at 13.99 mills. Santa Fe county returns roll with the territorial tax extended at 15 mills, Valencia at 17 mills and Lincoln at 14.29 mills. The Santa Fe roll was returned for correction.

The following counties show summaries to exceed the total of the different classifications of property as appears in abstract, viz:

Otero county	$120,208 00
Valencia	86 19
San Miguel	238,048 00
Union	58,644 00
Colfax	155,450 00
Lincoln	1,044 00
Socorro	67,543 00
Mora	1,343 00
Total	$642,366 19

On the other hand, in the following counties, the total value of the different classifications of property as appears in abstracts, exceed the amount shown in summaries, viz:

Luna county	$ 115 00
Sierra	9,629 80
Taos	4,990 00
Doña Ana	566 00
San Juan	2,481 00
Eddy	528 00
Guadalupe	688 75
Total	$ 18,998 55

Santa Fe and Rio Arriba counties fail to return an abstract, so no comparison can be made in this respect.

When it is taken into consideration that the charges to the several county treasurers of the Territory, in the office of the Auditor is based on the assessed valuation, subject to tax, as shown in summaries, it can at once be seen that these

charges (the basis on which accounts are opened with county treasurers) are entirely unreliable and incorrect and for the year 1902 the only county treasurers that there is any assurance as to the correctness mathematically of their charges for 1902 tax are those counties where rolls are returned balanced, accompanied by proper abstract.

As the law requires the assessment rolls to be at this office by the first Monday of September, and it also requires the Board of Equalization to meet on the second Monday of September, sufficient time is not given this office to properly check the assessment rolls, and have the proper corrections made when needed. I would suggest that either the time for the assessment rolls to be at this office, or the time for the meeting of the Board of Equalization be changed, so as to give this office sufficient time to check up same, and that the Auditor be given ample power and authority to return an incomplete or incorrect roll, and require the assessor to make the proper correction.

I am compelled to call your attention to the fact that the same state of affairs, as far as the accounts of the ex-county treasurers, not being properly balanced in this office still exists. I have made a special effort to have these accounts balanced, sending out statements to the different treasurers of the amount unsettled, requesting them to make a settlement, and with very few exceptions I have been unsuccessful, the majority paying no attention to my request. As it is impossible to get a settlement from the ex treasurers up to and including 1899, as in my opinion they have all made the proper settlements with their respective county commissioners, the county clerk failing to certify the same to this office as required by law, I would suggest that an act be passed authorizing the Auditor to balance these accounts by charge to the county, as the Thirty-fourth Legislative Assembly gave all territorial delinquent taxes up to and including 1889 to the counties.

In this connection I would also suggest that the different county treasurers be required to give a bond with some surety company authorized to do business in the territory as sureties thereon, and such company not to be released as bondsmen until the treasurers accounts have been properly balanced in

this office. I would also suggest that the treasurers be required to file in this office a certified quarterly statement upon blanks to be furnished by this office, so as to enable the Auditor to properly balance each treasurer's accounts quarterly.

I have been informed that certain collectors of taxes in this territory when the taxpayer is unable or refuses to pay the full amount of taxes due as appears upon the assessment roll, but tenders a certain amount in part payment of same, the collector refuses to accept and give his official receipt for the amount tendered. This proceeding in my opinion deprives the territory of that amount of revenue for an indefinite time, and I would suggest that an act be passed directing the various collectors to receive and give his official receipt for the amount tendered.

By comparing the various quarterly reports of this office with the corresponding ones of the treasurer's office, you will find that the balances as shown in the Auditor's Report greatly exceed those shown in the Treasurer's Report. This is caused by payments of certain indebtedness being paid direct by the treasurer. In my opinion the accounts of this office and those of the treasurer should at all times balance with the exceptions of outstanding warrants, and I would suggest that the treasurer be required not to pay out any territorial funds except upon a warrant issued by the Auditor.

I would also suggest that banks having territorial funds on deposit be required to give a bond to the territory with some surety company authorized to do business in the territory as sureties thereon, and no other class of bond to be accepted.

In my opinion the appropiation for the transportation of convicts to the Territorial Penitentiary should be increased, and the expenses incurred for serving requisitions issued by the governor be included in same.

Section 2598 of the Compiled Laws of 1897 makes it my duty to report to the legislature all claims filed in this office. In Statement 15 of this report you will find that there has been filed in this office for the fifty-second and fifty-third fiscal years claims amounting to $8,615.85. These are not deficiency claims, but are claims filed in excess of appropriation, and claims not provided for by law.

The Thirty-third Legislative Assembly appropriated the

sum of $19,300 for the purpose of reimbursing New Mexico Normal University, also the sum of $18,000 for the purpose of reimbursing the Board of Public Lands, requiring the Auditor to make a levy from year to year until the above amounts were realized. It is my opinion that the levy made by me for the year 1902 will reap sufficient revenue to pay these amounts in full; and the levy for these purposes will be discontinued.

The Thirty-fourth Legislative Assembly made an appropriation amounting to the sum of $13,652.93 to pay certain deficiencies. Of this amount you will find, by Statement 15 of this report, that there has been paid $12,882.86, leaving a balance unpaid of $770.07. This amount has not been paid for the reason that there was some doubt as to the intention of the legislature, they having appropriated a lump sum of $960.00 for the payment of wild animal bounty claims, and as there was a greater amount of this class of claims on file, I could not tell which were the proper ones to pay, as I have no data on the subject.

You will find in statement 18 that the clerks of the district court have turned into the territorial treasury the sum of $18,709.80, as fees from their respective offices, from the 1st of December 1900 to the 30th of November inclusive, 1902, thus making an average percentage of their salary paid by fees of 58.4 per cent.

In the same statement you will find that the territorial secretary has turned into the treasury, to the credit of territorial purposes, from the 1st of December, 1900, to the 30th of November inclusive, 1902, fees amounting to the sum of $20,543.50.

Statement No. 27 shows that the expenses of the Thirty-fourth Legislative Assembly amounted to $20,912.35.

Respectfully submitted,

W. G. SARGENT, Territorial Auditor.
